# WELCOME TO OUR COMPANY

At Texas Electric, we are dedicated to transforming energy into progress. With extensive experience in the design and manufacturing of distribution transformers, we serve the needs of global energy systems, empowering both families and businesses around the world.

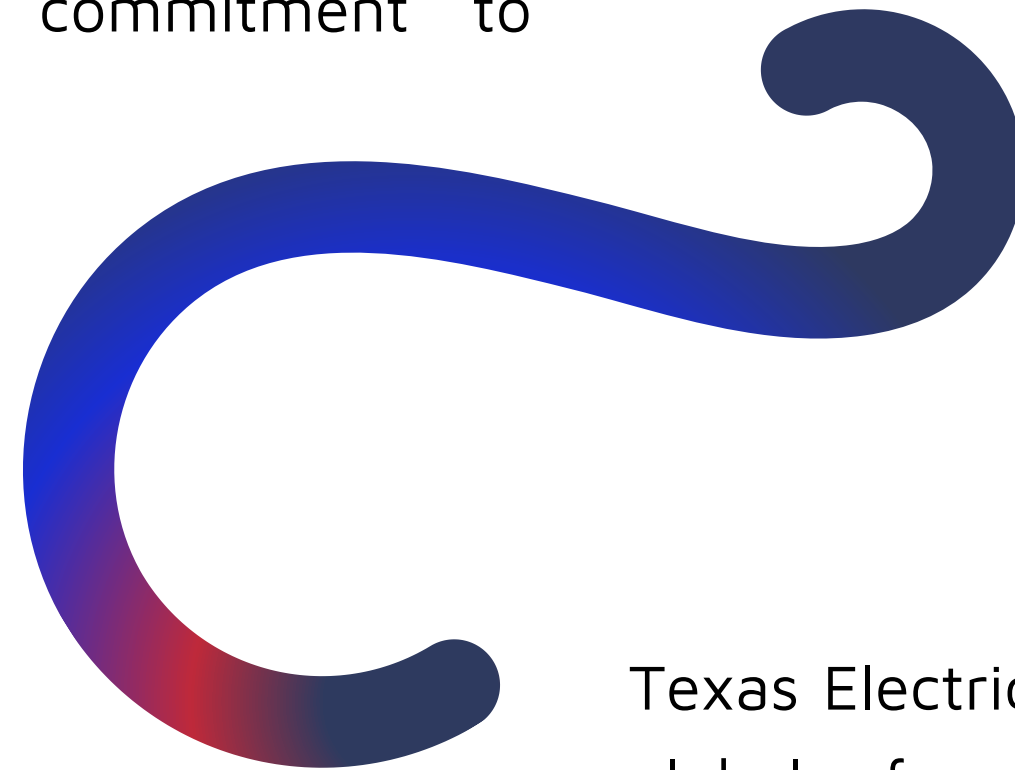

# CORPORATE PURPOSE

We are driven by the pursuit of the optimal balance between cost and efficiency, guided by a commitment to excellence, innovation, and continuous improvement. We guarantee optimal performance and exceptional durability in every component of our transformers.

# CORPORATE PURPOSE

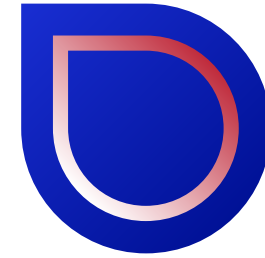

We are inspired by a deeper mission: to transform lives by delivering energy solutions that improve the quality of life for our customers, their communities, and future generations. Every transformer we sell carries our commitment to meaningful, long-lasting value.

Texas Electric Group strives to become a leading global reference in the energy distribution sector, recognized for our excellence, technological advancement, and ability to adapt to a changing world—transforming challenges into opportunities through innovation, efficiency, and strong partnerships.

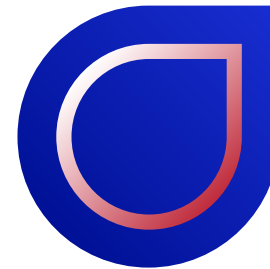

# STRATEGIC OBJECTIVES

Provide personalized, responsive service at every stage of the sales process to strengthen client loyalty and satisfaction.

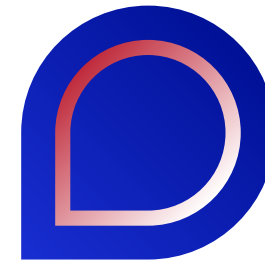

**Enhance Customer Experience**

**Expand Market Presence**

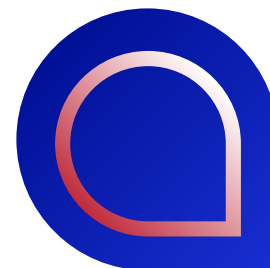

Grow our footprint in national market through strategic partnerships and customer-focused commercial strategies.

Offer customized transformer options that meet the technical, financial, and operational needs of each client.

**Deliver Tailored Solutions**

**Foster Long-Term Partnerships**

Position ourselves not just as suppliers, but as trusted advisors committed to the growth and success of our clients.

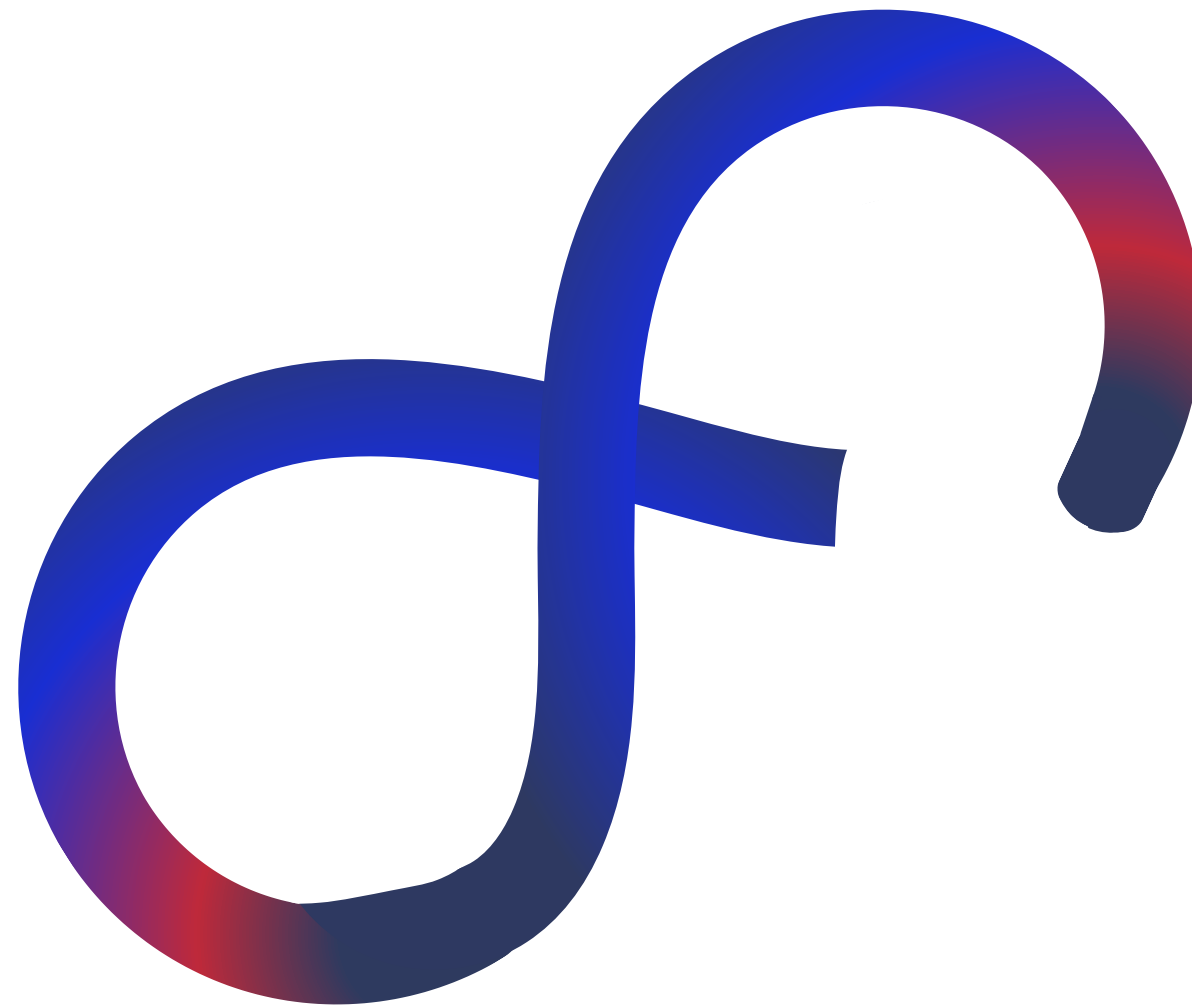

# CORPORATE VALUES

## Customer Commitment

We build long-term relationships based on trust, transparency, and dedication to exceeding customer expectations.

## Reliability

Our clients count on us for consistent performance, on-time delivery, and solutions that last.

## Collaboration

We believe in teamwork—with our clients, within our company, and across our partners—to achieve shared success.

## Purpose-Driven Impact

Provide reliable energy distribution and contribute to a better quality of life for our customers and their communities.

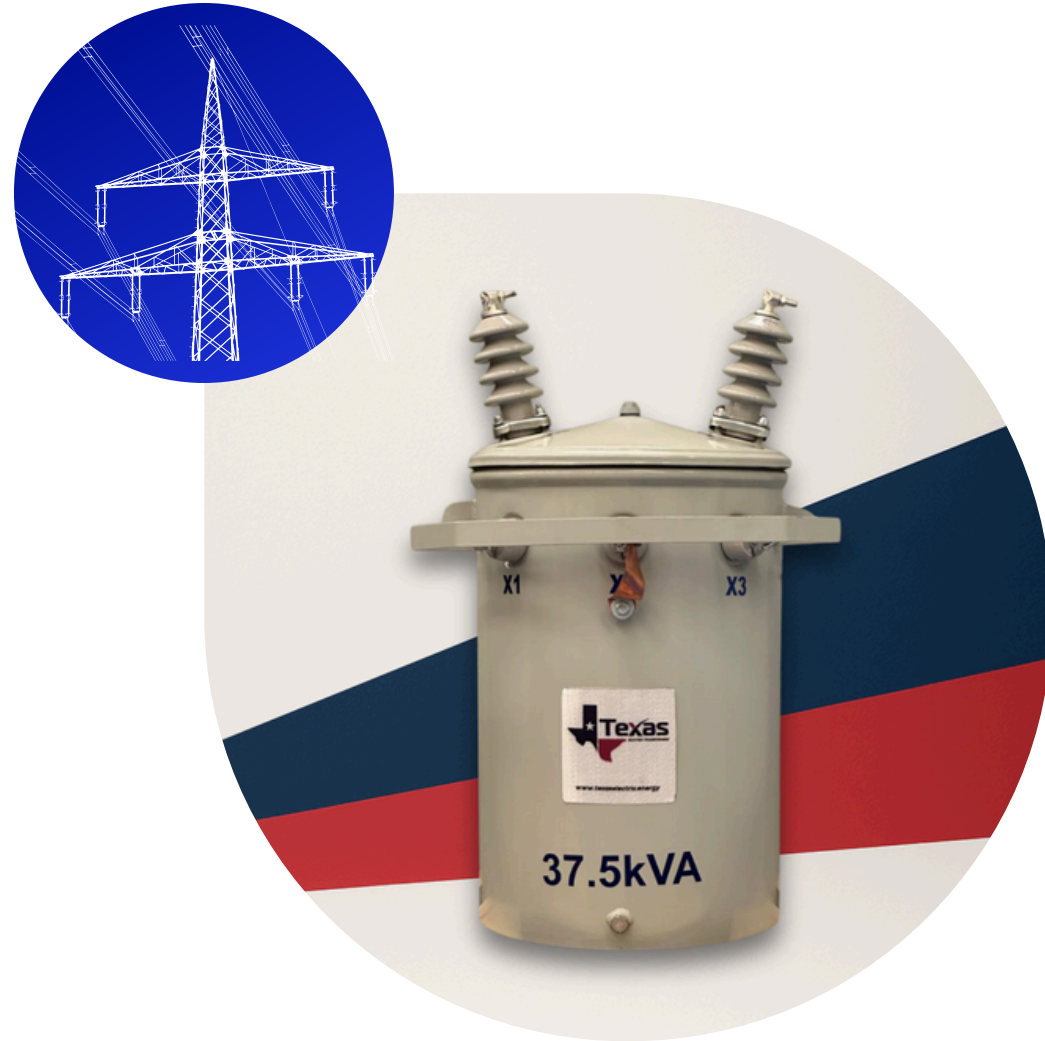

## **SINGLE-PHASE PAD-MOUNTED TRANSFORMERS**

## **THREE-PHASE PAD-MOUNTED TRANSFORMERS**

Installed on concrete pads outdoors, these transformers stand out for their compact and secure design, which protects internal components against harsh weather conditions.

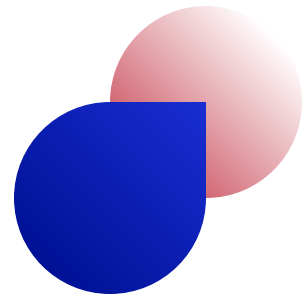

## **SINGLE-PHASE POLE-TYPE TRANSFORMERS**

## **THREE-PHASE POLE-TYPE TRANSFORMERS**

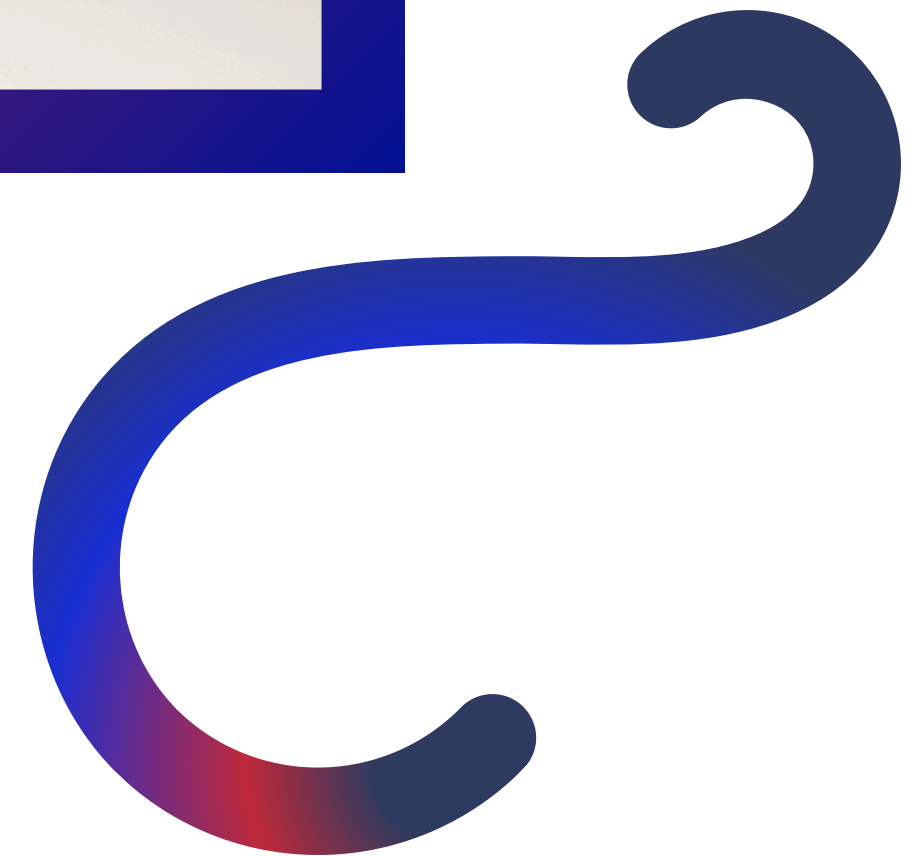

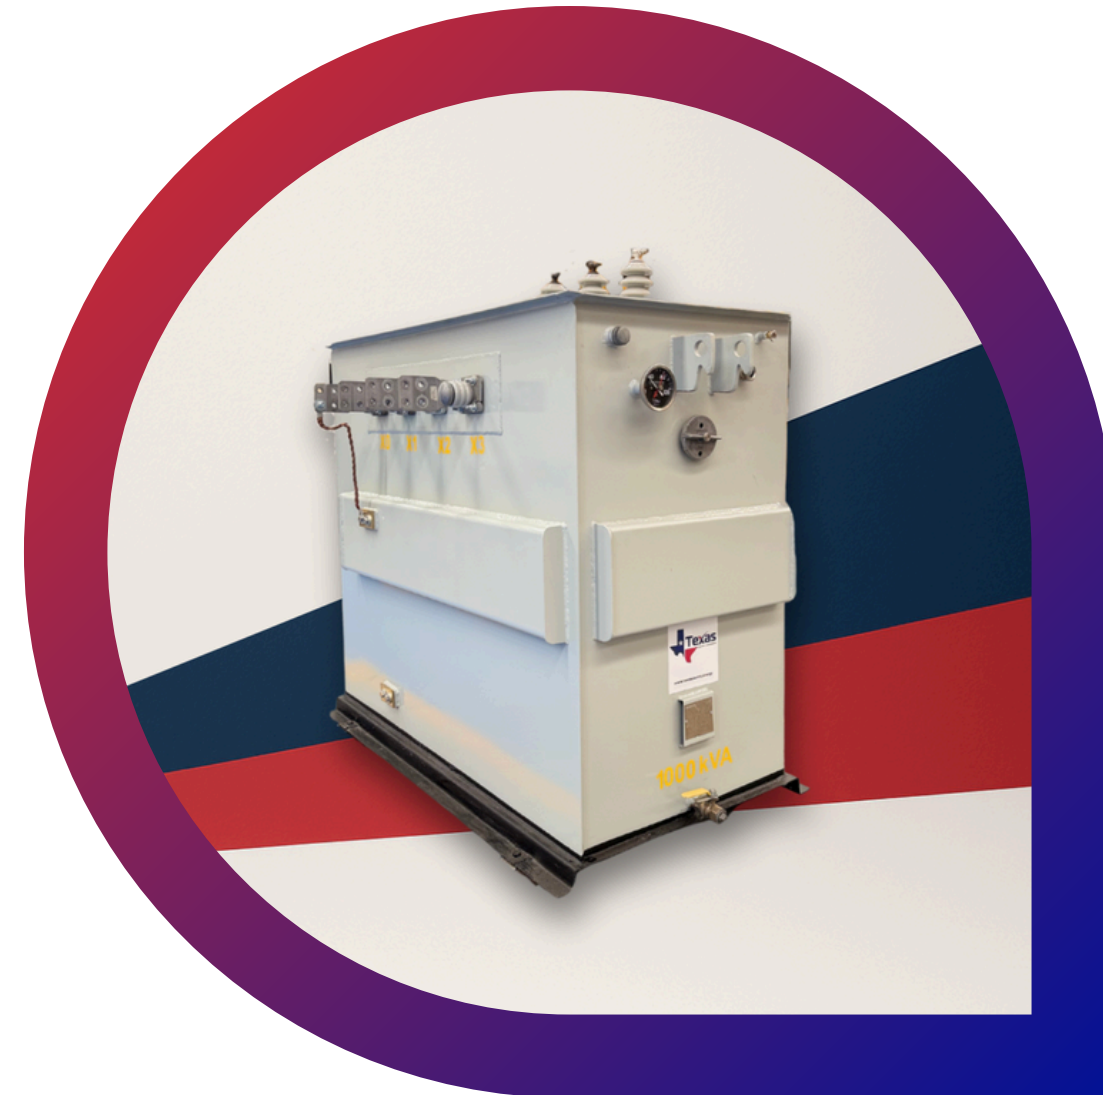

Pole-mounted units designed to step down transmission voltage to levels suitable for residential and commercial use. They are durable, efficient, and built to withstand harsh environmental conditions.

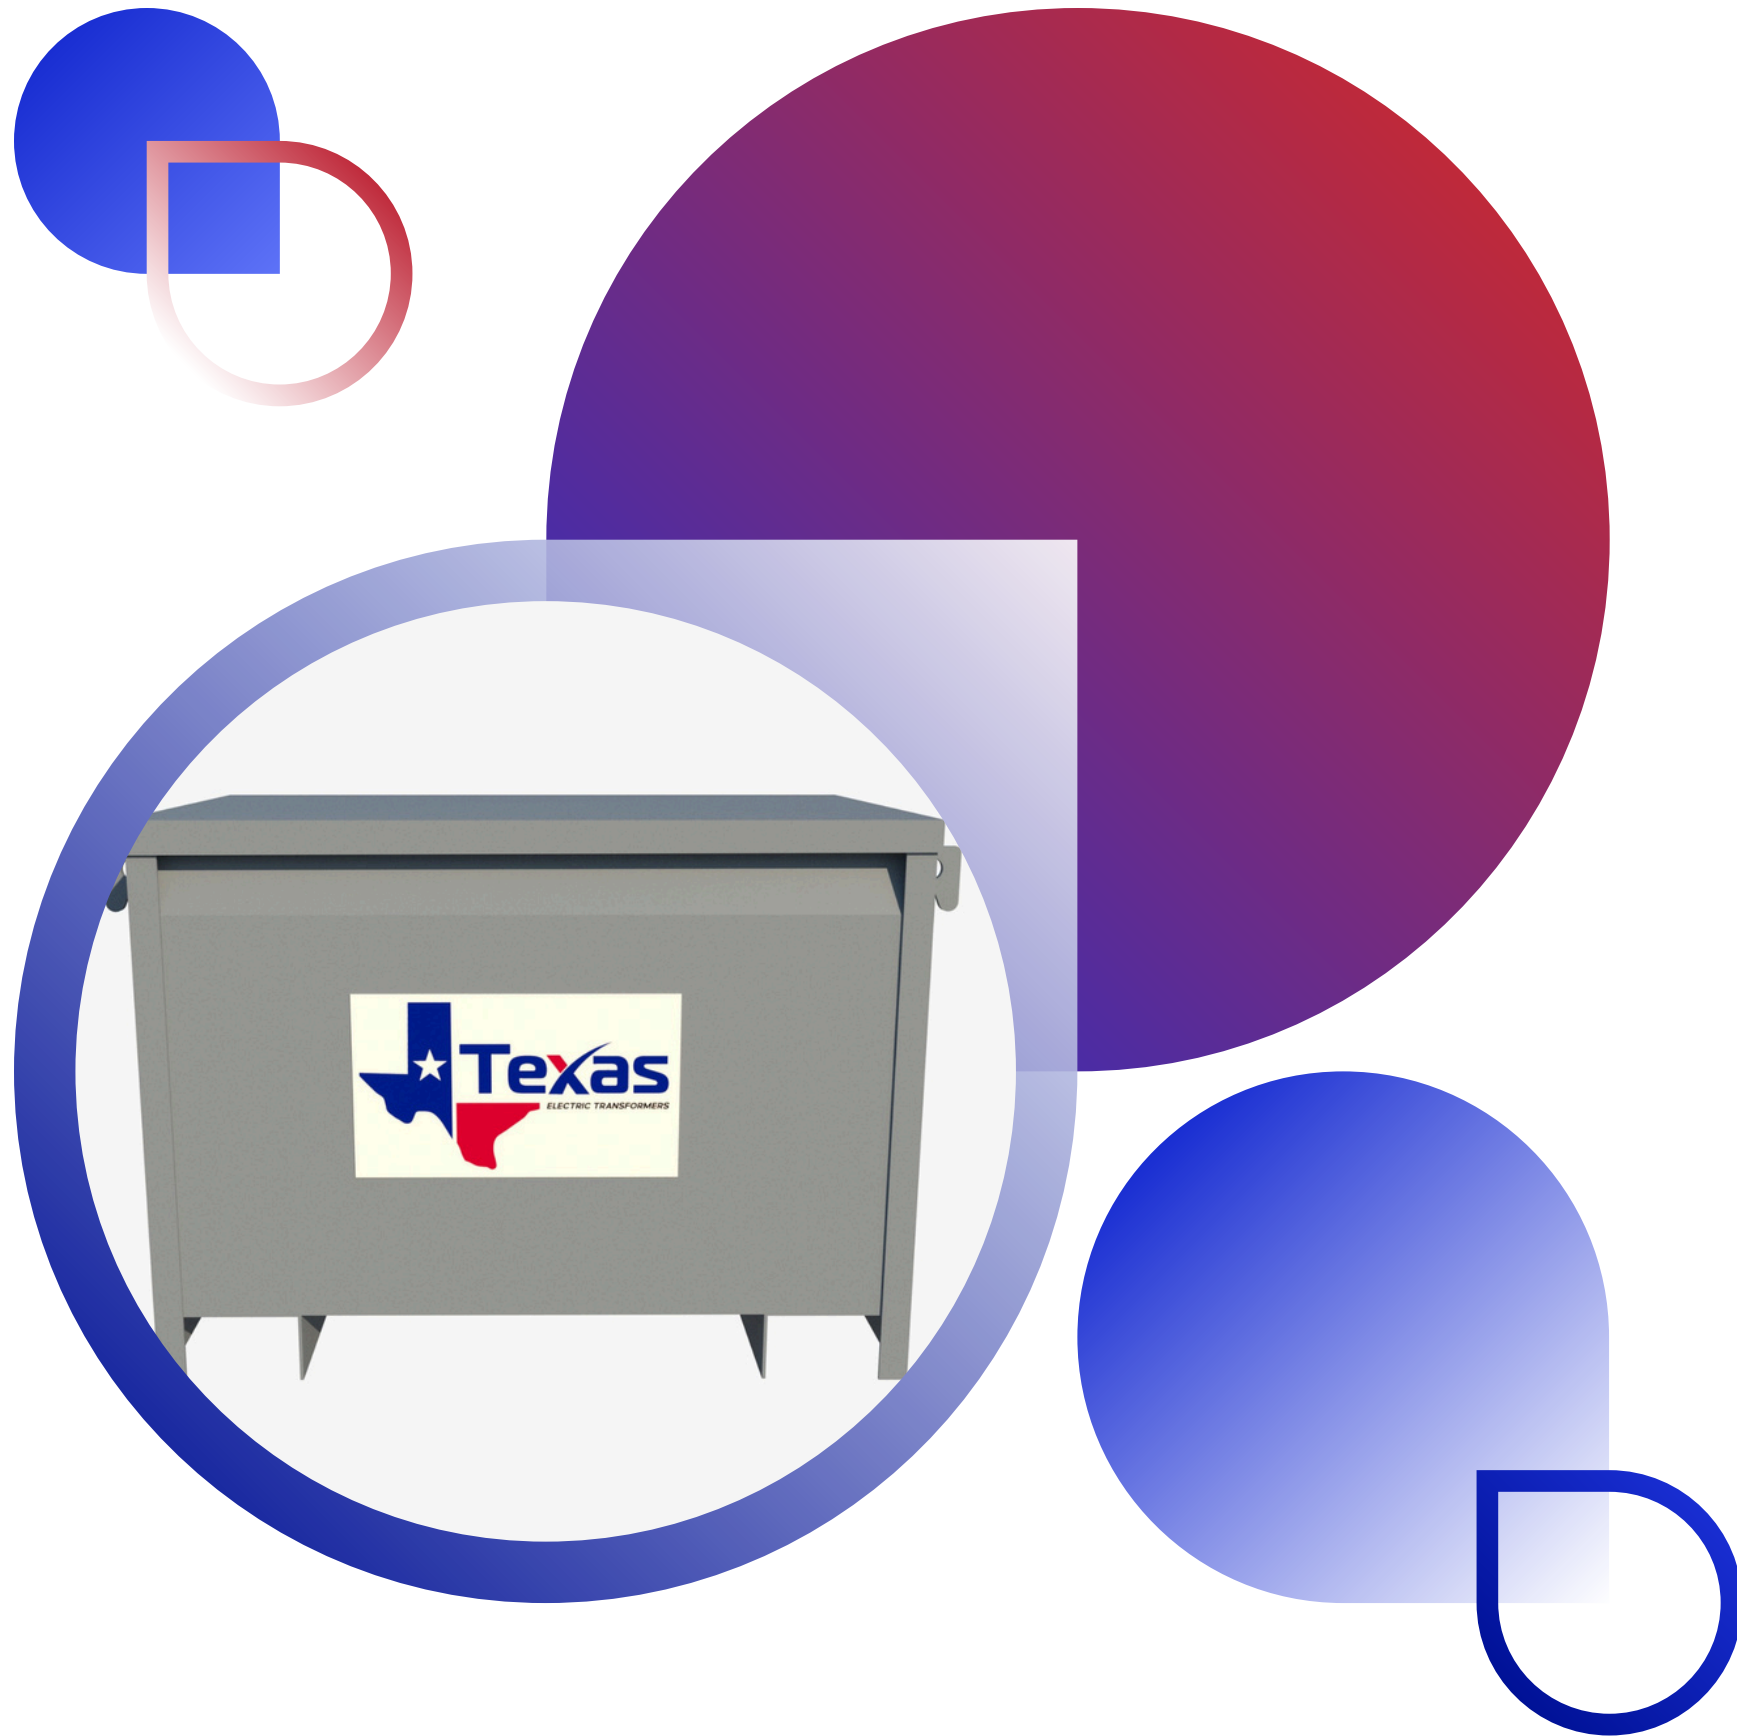

# SUBSTATION TRANSFORMERS

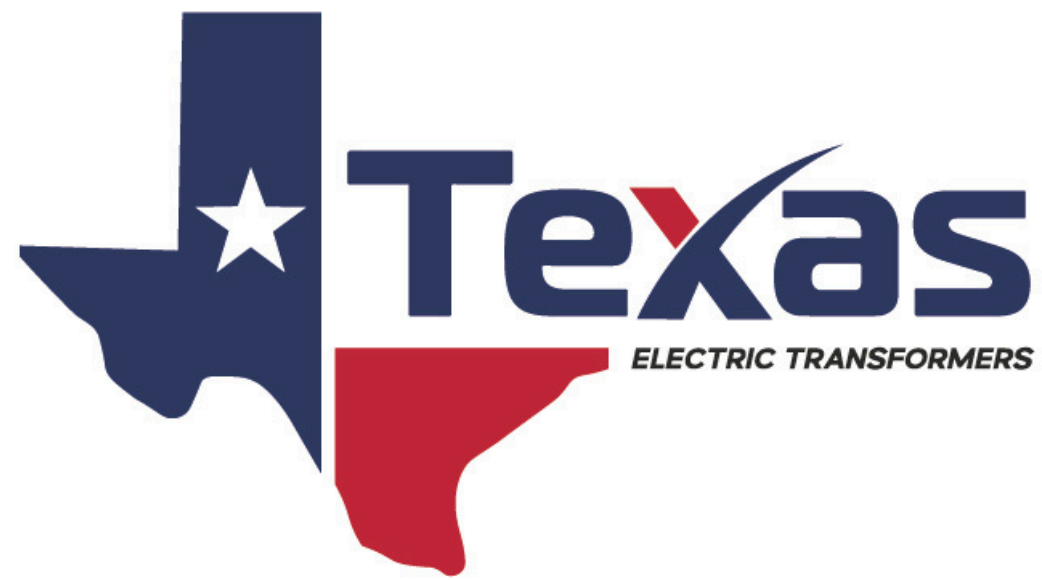

A key component to ensure stable power supply in urban and industrial areas. Its role is to step up or step down voltage at electrical substations, ensuring efficient and safe energy distribution over long distances.

## DRY-TYPE TRANSFORMER

They are ideal for indoor applications, fire-sensitive locations, or areas requiring enhanced safety, as they eliminate the risk of flammable liquid leaks. This is because they use solid insulating materials and air to cool the core and windings, instead of oil-based insulation.
